Experience

Attributy — Front-End Developer
Sept 2022 - Jun 2024

React Node.js HTML5 CSS3 Tailwind Zustand Git PostgreSQL Express NextJS

- **Increased page load speed by 30%** by implementing Server-side Rendering (SSR), which significantly enhanced SEO, resulting in higher search engine rankings and substantial growth in web traffic.
- **Improved efficiency of key processes by up to 12%** through optimization of website algorithms and performance, leading to faster load times and an enhanced user experience.
- **Reduced bounce rates by 25%** and improved user engagement by leading a front-end optimization initiative that developed a more responsive and user-friendly interface.
- **Elevated client satisfaction** by developing an interactive data visualization dashboard providing real-time insights, empowering clients to make informed business decisions.

Freelancer — Web Developer (self-employed)
Jul 2022 - Present

React Node WordPress Javascript Typescript NextJS Redux Rest APIs

- **Developed** a custom web scraper to extract public data from LinkedIn profiles for analysis and reporting purposes.
- **Designed** and implemented an employee scheduling system to streamline workforce management and automate shift assignments.
- **Technical Consultant** advising on coding best practices and design patterns, enhancing overall software quality and alignment with project goals.

Education

University of Mitrovica "Isa Boletini" — Computer Science Bachelor
Sept 2024 - present
